Professional Summary

MERN Stack Developer with hands-on experience building and deploying full-stack web applications. Skilled across the entire stack – MongoDB, Express.js, React.js, and Node.js – with experience in REST API design, real-time communication, JWT authentication, and cloud deployment. Certified in Oracle Cloud Infrastructure AI Foundations. Passionate about problem-solving, continuous learning, and contributing to impactful real-world projects.

Technical Skills

Languages: C, Java, JavaScript

Frontend: React.js, Redux, Tailwind CSS, HTML, CSS, Context API, React Hooks

Backend: Node.js, Express.js, NestJS, REST API Design, Socket.IO, Nodemailer, Cloudinary SDK

Database Management: MongoDB, Mongoose, MySQL, PostgreSQL, Redis, TypeORM

Auth & Security: JWT, bcrypt, Session Management, CORS

DevOps Tools & Technologies: Git, GitHub, Vercel, Postman, Render, Docker

Experience

JPL Tech Pvt. Ltd.

Full Stack Developer-Enterprise Landing Page & Template Builder

Delhi

June 2026 – present

Tech Stack: React.js, TypeScript, NestJS, MySQL, TypeORM, GrapesJS, Tailwind CSS, JWT

- Developed a full-stack low-code landing page and template builder using React and NestJS.
- Built a drag-and-drop editor for creating and managing reusable landing page templates.
- Designed REST APIs for authentication, template management, uploads, and analytics.
- Implemented JWT authentication, asset management, and MySQL database integration.
- Followed modular architecture, reusable components, and Clean Architecture principles.

Projects

Imagify – Text to Image SaaS App | React.js, Node.js, Express.js, MongoDB, Tailwind CSS – [Live Link](#) | [GitHub](#)

- Built a full-stack AI image generation web app using the MERN stack (MongoDB, Express, React, Node.js).
- Integrated a deep learning API to generate images from text prompts with request validation and error handling.
- Implemented JWT authentication, cloud image storage via Cloudinary, and user history tracking.
- Designed a responsive, intuitive React UI with Tailwind CSS for a seamless end-to-end user experience.
- Deployed the frontend on Vercel and backend on Render with environment-based configuration.

Chat-Z: Real-Time Chat Application | React.js, Redux, Tailwind CSS, Express.js, Socket.IO, MongoDB – [Live Link](#) | [GitHub](#)

- Developed a full-stack real-time messaging application enabling live communication between users.
- Integrated Socket.IO for bidirectional real-time messaging with room-based event handling.
- Designed MongoDB schemas (Mongoose) and built Express.js REST APIs for authentication and message handling.
- Implemented Redux for scalable state management across chat and user modules on the frontend.
- Built a responsive, modern UI using React.js and Tailwind CSS, and deployed the app on Render.

Education

DR. Ambedkar Institute of Technology for Divyangjan

Bachelor of Technology – CGPA: 7.65/10

Kanpur

2022 – 2026

St. Thomas School, Gopiganj

Intermediate

2021

St. Thomas School, Gyanpur

High School

2019

Certifications & Achievements

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate | [View Certificate](#)

- Certification ID: 102580157OCI25AICFA

Infosys Springboard – JavaScript | [View Certificate](#)

- Completed training in Spring Boot, REST APIs, and Modern JavaScript concepts.
